 OVERLAP |  VQUATTRO

WINTER 2022 - SUMMER 2023

OVERLAP

QUI SOMMES NOUS ?

OVERLAP® : marque Française du groupe RIDERVALLEY et leader sur le marché du **jeans de moto homologués**, crée chaque saison des collections innovantes, techniques, pointues et **conformes aux exigences des normes CE et des motards**.

En recherche permanente de confort, de style et d'ergonomie, la nouvelle collection est axée principalement sur une recherche d'innovation matière.

Notre matière **POWERSTRETCH MONO-COUCHE** est le fruit d'une étroite et longue collaboration avec nos fournisseurs afin de vous proposer un produit qui **optimise le confort en position de conduite et en journée**.

Cette matière associe une **souplesse** incomparable, une **élasticité** importante, et un retour parfait à sa forme d'origine après étirement.

Les jeans ERIN pour la femme et HARY pour l'homme sont donc des produits très extensibles, confortables et adaptés aux contraintes liées à la pratique de la moto en milieu urbain. Sans doublure de renfort ces produits permettent un look parfait au porté et un confort inégalable pour un EPI (équipement de protections individuel).

Nous avons également développé de **nouveaux coloris** et **détails** en adéquation avec les dernières tendances.

L'ensemble de notre gamme est toujours **entièrement homologué en France** selon les derniers standards en vigueur, l'usage et la pratique de chacun de nos clients.

ENG OVERLAP®: French brand from RIDERVALLEY group, leader on the homologated motorcycle jeans market, each season creates innovative, technical, cutting-edge collections that comply with the requirements of CE standards and motorcyclists.

In constant search for comfort, style and ergonomics, the new collection is mainly focused on a search for material innovation. Our MONO-LAYER POWERSTRETCH material is the result of close and long collaboration with our suppliers in order to offer you a product that optimizes comfort in the driving position and during the day.

This material combines incomparable suppleness, significant elasticity, and a perfect return to its original shape after stretching.

ERIN jeans for women and HARY jeans for men are therefore very stretchy, comfortable and adapted to the constraints associated with riding a motorcycle in an urban environment. Without reinforcement lining, these products allow a perfect look when worn and unequalled comfort for PPE (personal protective equipment).

We have also developed new colors and details in line with the latest trends.

Our entire range is always fully approved in France according to the latest standards in force, the use and practice of each of our customers.

ESP OVERLAP®: marca francesa del grupo RIDERVALLEY y leader en el mercado de los Jeans de moto homologados, crea cada temporada colecciones innovadoras, técnicas, de moda y conformes a las exigencias de las normas CE y de los motociclistas.

En constante búsqueda de confort, estilo y ergonomía, la nueva colección se centra principalmente en la búsqueda de innovación en materia.

Nuestro material POWERSTRETCH MONO CAPA es el resultado de una estrecha y larga colaboración con nuestros proveedores para ofrecerle un producto que optimice la comodidad en la conducción y durante el día.

Este material combina una flexibilidad incomparable, una elasticidad importante y un retorno perfecto a su forma original después del estiramiento.

Los vaqueros ERIN para mujer y HARY para hombre son por lo tanto productos muy elásticos, cómodos y adaptados a las limitaciones vinculadas a la práctica de la moto en medio urbano. Sin forro de refuerzo estos productos llevan un aspecto perfecto y una comodidad inigualable para un EPI (equipo de protección individual).

También hemos desarrollado nuevos colores y detalles en consonancia con las últimas tendencias.

Toda nuestra gama está siempre totalmente homologada en Francia según las últimas normas en vigor, el uso y la práctica de cada uno de nuestros clientes.

ITA OVERLAP® marchio francese di gruppo RIDERVALLEY e leader sul mercato dei Jeans per moto omologati, crea ogni stagione collezioni innovative, tecniche, di tendenza e conformi alle esigenze delle norme CE e dei motociclisti.

Alla continua ricerca di comfort, stile ed ergonomia, la nuova collezione è incentrata principalmente sulla ricerca di materiali innovativi.

Il nostro materiale POWERSTRETCH MONO STRATO è il frutto di una stretta e lunga collaborazione con i nostri fornitori per offrirvi un prodotto che ottimizza il comfort in posizione di guida e durante il giorno.

Questo materiale associa una flessibilità incomparabile, una grande elasticità ed un ritorno perfetto alla sua forma originale dopo l'allungamento.

I jeans ERIN per la donna e HARY per l'uomo sono quindi prodotti molto elastici, comodi ed adatti ai vincoli legati alla guida in ambiente urbano. Senza fodera di rinforzo, questi prodotti presentano un look perfetto ed un comfort ineguagliabile per un EPI (equipaggiamento di protezione individuale).

Abbiamo anche sviluppato nuovi colori e dettagli in linea con le ultime tendenze.

Tutta la nostra gamma è sempre interamente omologata in Francia secondo gli ultimi standard in vigore, l'uso e la pratica di ognuno dei nostri clienti.

A black and white photograph of three models from the waist down, showcasing different styles of jeans. The model on the left wears a dark, straight-leg jean with a black belt. The middle model wears a dark, straight-leg jean with a black belt and a watch. The model on the right wears a light-colored, straight-leg jean with a black belt. A large, bold, white 'JEANS' text is overlaid on the right side of the image. A yellow label with the text 'collection 2022/2023' is positioned in the lower-left area. A small yellow icon is in the top-left corner. The background is a simple, light-colored wall.

A vertical fashion advertisement featuring a close-up of a person's hand in their jeans pocket. The word "JEANS" is repeated vertically in large, bold letters, with one instance highlighted in yellow. In the background, there are faint labels like "livraison" and "PRIX".

100% ARAMID FIBER

Twaron®

Le TWARON® est une marque déposée de PARA ARAMIDE. Sa fibre synthétique est résistante à la chaleur, avec des propriétés mécaniques extrêmement solides. Elle est utilisée dans l'aéronotique, l'aérospatiale, la construction navale, le secteur militaire ... OVERLAP a choisi depuis plus de 5 ans, d'utiliser des doublures en TWARON®.

TWARON® is a registered trademark of PARA ARAMIDE. It is a heat resistant synthetic fiber with mechanical properties and extreme strength. It is used in aeronautics, aerospace, shipbuilding, military sector ... OVERLAP has chosen for more than 5 years to use TWARON® linings.

TWARON® es una marca registrada de PARA ARAMIDE. Es una fibra sintética resistente al calor con propiedades mecánicas y alta resistencia. Se utiliza en los sectores aeronáutico, aeroespacial, naval y militar. OVERLAP ha optado por utilizar los revestimientos TWARON® desde hace más de 5 años.

TWARON® è un marchio registrato di PARA ARAMIDE. È una fibra sintetica resistente al calore con proprietà meccaniche e alta resistenza. Viene utilizzato nei settori aeronautico, aerospaziale, navale e militare. OVERLAP ha scelto di utilizzare i rivestimenti TWARON® da più di 5 anni.

50% ARAMID FIBER
50% COOLMAX®

COOLMAX®

Pour la gamme été, nous avons ajouté à nos doublures TWARON® de la fibre COOLMAX®. Le COOLMAX® possède une forte respirabilité, un séchage rapide qui permettent d'allier fraîcheur et confort en toutes circonstances.

For the summer range, we have added COOLMAX® fiber to our TWARON® linings. COOLMAX® is highly breathable and quick-drying, making it possible to combine coolness and comfort in all circumstances.

Para la gama de verano, hemos añadido la fibra COOLMAX® a nuestros forros TWARON®. COOLMAX® es altamente transpirable y de secado rápido, lo que hace que sea fresco y cómodo en todas las condiciones.

Per la gamma estiva, abbiamo aggiunto la fibra COOLMAX® alle nostre fodere TWARON®. COOLMAX® è altamente traspirante e ad asciugatura rapida, rendendolo fresco e confortevole in tutte le condizioni.

CORDURA®

Le tissu CORDURA® NYCO est fabriqué avec un mélange de fibres discontinues de nylon 6,6 et de coton INVISTA T420, ce qui lui permet d'offrir une résistance accrue à l'abrasion et à la déchirure.

CORDURA® NYCO fabric is engineered with an intimate blend of INVISTA T420 nylon 6,6 staple fiber and cotton and offers enhanced abrasion and tear resistance performance.

El tejido CORDURA® NYCO se fabrica con una mezcla de fibras discontinuas de nylon 6,6 y algodón INVISTA T420, lo que le permite ofrecer una mayor resistencia a la abrasión y al desgarro.

Il tessuto CORDURA® NYCO si fabbrica con un miscela di fibre discontinue di nylon 6,6 e di cotone INVISTA T420, grazie al quale offre una maggiore resistenza all'abrasione e allo strappo.

Toute la gamme de vestes **Overlap®** est entièrement homologuée CE.

La norme EN 13595 puis la nouvelle norme prEN17092 définissent le cadre précis, reproductible et basé sur des études scientifiques d'accidentologie à la réalisation de tests permettant de certifier un vêtement de protection pour motocyclistes.

Les vestes doivent répondre à des tests précis :
abrasion, déchirement, coutures résistantes à la traction.
Les protections coudes et épaules doivent être certifiées **EN-1621-2012**.

ENG The whole range of Overlap® jackets is fully CE approved.

The EN 13595 standard and the new EN17092 standard define the precise, reproducible framework, based on scientific studies of accidentology, to carry out tests to certify protective clothing for motorcyclists.

The jackets must respond to specific tests:
abrasion, tearing, tensile seams.
Elbows and shoulders should be certified **EN-1621-2012**.

ESP Toda la gama de chaquetas Overlap® es totalmente homologada CE.

La norma EN 13595 y la nueva norma EN17092 define la estructura precisa, reproducible y basada en estudios científicos de la cronología de los accidentes hasta la realización de pruebas que permiten certificar una ropa de protección para motociclistas.

Las chaquetas deben responder a prueba precisa :
abrasión, desgarró, costuras resistentes a la tracción.
Las protecciones codos y hombros deben estar certificados **EN-1621-2012**.

ITA Tutta la gamma di giacche Overlap® é totalmente omologata CE.

La norma EN 13595 e la nova norma EN17092 definisce la struttura precisa, riproducibile e basata su degli studi scientifici della cronologia degli incidenti fino alla realizzazione di test che permettono di certificare un abito di protezione per i motociclisti.

Le giacche devono rispondere a dei test precisi :
abrasione, strappo, cuciture resistenti alla trazione.
Le protezioni gomiti e spalle devono essere certificate **EN-1621-2012**.

protección para el maléolo

Toute la gamme de chaussures **Overlap®** est entièrement homologuée CE.

La norme EN 13634 définit le cadre précis, reproductible et basée sur des études scientifiques d'accidentologie à la réalisation de tests permettant de certifier une chaussure de protection pour motocyclistes.

Les chaussures doivent répondre à des tests précis : impact, abrasion, coupure, déchirement, écrasement et hauteur avec 2 niveaux possibles.

ENG The entire range of **Overlap®** shoes is fully CE approved.

The EN 13634 standard defines the precise, replicable framework, based on scientific studies of accidentology, to carry out tests to certify protective clothing for motorcyclists.

Shoes must meet specific tests : impact, abrasion, cutting, tearing, crushing and height with 2 possible levels

ESP Toda la gama de zapatos de **Overlap®** es totalmente homologada CE.

La norma EN 13634 define la estructura precisa, reproducible y basada en estudios científicos de la cronología de los accidentes hasta la realización de pruebas que permiten certificar un zapato de protección para motociclistas.

Los zapatos deben responder a unas pruebas precisas : impacto, abrasión, corte, desgarró, la trituración y la altura con 2 niveles posibles.

ITA Tutta la gamma di scarpe **Overlap®** é totalmente omologata CE.

La norma EN 13634 definisce la struttura precisa, riproducibile e basata su degli studi scientifici della cronologia degli incidenti fino alla realizzazione di test che permettono di certificare una scarpa di protezione per i motociclisti.

Le scarpe devono rispondere a dei test precisi : impatto, abrasione, taglio, strappo, schiacciamento e altezza con 2 livelli possibili.

Empiècements tactiles

soft yokes
elementos táctiles
inserti pannelli

Toute la gamme de gants **Overlap®** est entièrement homologuée CE.

FRA La norme **EN 13594** définit le cadre précis, reproductible et basé sur des études scientifiques d'accidentologie à la réalisation de tests permettant de certifier un gant de protection pour motocyclistes.

Les gants sont soumis à plusieurs tests de résistance : abrasion, impact, longueur de manchette, déchirement, système de maintien, coutures.

ENG The whole range of **Overlap®** gloves is fully CE approved.

The **EN 13594** standard defines the precise, reproducible framework based on scientific studies of accidents and the carrying out of tests to certify a protective gloves for motorcyclists.

Gloves must meet specific test requirements: impact, abrasion, cutting, tearing, crushing and height with 2 possible levels.

ESP Toda la gama de guantes **Overlap®** está totalmente aprobada por la CE.

La norma **EN 13594** define el marco preciso y reproducible basado en estudios científicos de accidentes para llevar a cabo pruebas para certificar un guante de protección para motociclistas.

Los guantes se someten a varias pruebas de resistencia: abrasión, impacto, largo de la manga, desgarró, sistema de sujeción, costuras.

ITA Tutta la gamma di guanti **Overlap®** è completamente approvata CE.

La norma **EN 13594** definisce il quadro preciso, riproducibile e basato su studi scientifici degli incidenti, per effettuare test che consentono di certificare un guanto di protezione per i motociclisti.

I guanti sono sottoposti a diversi test di resistenza: abrasione, impatto, lunghezza del polsino, strappo, sistema di tenuta, cuciture.

VQUATTRO DESIGN

VQUATTRO

VQUATTRO

VQUATTRO DESIGN®, marque Française du groupe Ridervalley, crée et développe des collections entièrement homologuées de gants, chaussures, et vêtements pour les motards soucieux de leur sécurité et de leur style.

Les lignes sont structurées, sportives et raffinées, les finitions sont dynamiques et contemporaines et les matières allient confort et technicité en accord avec les nouvelles normes européennes.

Pour cette nouvelle collection 2022-2023, VQUATTRO DESIGN® a :

- renforcé son identité sport et road tout en respectant les nouveaux standards de sécurité
- épuré ses looks
- étendu ses propositions de produits alliant praticité et ergonomie pour une conduite optimisée.

ENG VQUATTRO DESIGN®, a French brand of the Ridervalley group, creates and develops fully approved collections of gloves, shoes, and clothing for bikers concerned about their safety and style.

The lines are structured, sporty and refined, the finishes are dynamic and contemporary and the materials combine comfort and technicality in accordance with the new European standards.

For this new 2022-2023 collection, VQUATTRO DESIGN® has :

- strengthened its sport and road identity while respecting the new safety standards
- refined its looks
- extended its product proposals combining practicality and ergonomics for an optimized driving experience.

ESP VQUATTRO DESIGN®, marca francesa del grupo Ridervalley, crea y desarrolla colecciones totalmente homologadas : guantes, zapatos y ropa para motoristas preocupados por su seguridad y su estilo.

Las líneas son estructuradas, deportivas y refinadas, los acabados son dinámicos y contemporáneos y los materiales combinan comodidad y técnica respetando las nuevas normas europeas.

Para la nueva colección 2022-2023, VQUATTRO DESIGN® :

- ha reforzado su identidad deportiva y road respetando las nuevas normas de seguridad
- ha elegido looks más minimalistas
- ha ampliado sus propuestas de productos que combinan practicidad y ergonomía para una conducción optimizada

ITA VQUATTRO DESIGN®, marchio francese del gruppo Ridervalley, crea e sviluppa collezioni completamente omologate di guanti, scarpe e abbigliamento per i motociclisti preoccupati della loro sicurezza e del loro stile.

Le linee sono strutturate, sportive e raffinate, le finiture sono dinamiche e contemporanee e i materiali combinano comfort e tecnica secondo i nuovi standard europei.

Per questa nuova collezione 2022-2023, VQUATTRO DESIGN® ha :

- rafforzato la sua identità sportiva e stradale rispettando i nuovi standard di sicurezza
- dei look più minimalisti
- esteso le sue proposte di prodotti che combinano praticità ed ergonomia per un'esperienza di guida ottimizzata.

GAMME DE CHAUSSURES

Toute la gamme de chaussures **Vquattro Design®** est entièrement homologuée CE.

La norme **EN 13634** définit le cadre précis, reproductible et basée sur des études scientifiques d'accidentologie à la réalisation de tests permettant de certifier une chaussure de protection pour motocyclistes.

Les chaussures doivent répondre à des tests précis : impact, abrasion, coupure, déchirement, écrasement et hauteur avec 2 niveaux possibles.

ENG The entire range of Vquattro Design® shoes is fully CE approved.

The **EN 13634** standard defines the precise, replicable framework, based on scientific studies of accidentology, to carry out tests to certify protective clothing for motorcyclists.

Shoes must meet specific tests :
impact, abrasion, cutting, tearing, crushing and height with 2 possible levels

ESP Toda la gama de zapatos de Vquattro Design® es totalmente homologada CE.

La **norma EN 13634** define la estructura precisa, reproducible y basada en estudios científicos de la cronología de los accidentes hasta la realización de pruebas que permiten certificar un zapato de protección para motociclistas.

Los zapatos deben responder a unas pruebas precisas :
impacto, abrasión, corte, desgarro, la trituración y la altura con 2 niveles posibles.

ITA Tutta la gamma di scarpe Vquattro Design® è totalmente omologata CE.

La **norma EN 13634** definisce la struttura precisa, riproducibile e basata su degli studi scientifici della cronologia degli incidenti fino alla realizzazione di test che permettono di certificare una scarpa di protezione per i motociclisti.

Le scarpe devono rispondere a dei test precisi :
impatto, abrasione, taglio, strappo, schiacciamento e altezza con 2 livelli possibili.

PRIMALOFT

Les qualités de PrimaLoft®

PrimaLoft® est la référence mondiale des isolants haute performance. La microfibre synthétique est chaude, douce et légère tout comme le duvet.

- Durable
- **Matières recyclées**
- **Déperlance**, (contrairement au duvet naturel). Absorption réduite de l'humidité afin de conserver la chaleur corporelle.
- **Maintien de la chaleur** quelles que soient les conditions climatiques
- **Séchage rapide** (supérieur au duvet)
- Excellente **compressibilité**, excellent rapport poids / chaleur
- Perméabilité à l'air
- **Facilité d'entretien**

Reconnue par les plus grandes marques de glisse, d'outdoor ou de moto, la technologie PrimaLoft® est constituée de microfibres techniques uniques qui combinent avec succès les avantages du duvet naturel et les propriétés synthétiques.

ENG The qualities of PrimaLoft®

PrimaLoft® is the world leader in high-performance insulation. The synthetic microfiber is warm, light and soft like down.

- Durable
- **Recycled materials**
- **Water-repellant**, (unlike natural down). Reduced moisture absorption to maintain body heat.
- **Maintenance of heat** in all climatic conditions
- Quick drying (superior to down)
- Excellent **compressibility**, excellent weight / heat ratio
- Air permeability
- **Easy care**

Recognized by the world's leading sliding sport, outdoor and motorcycle brands, PrimaLoft® technology is made up of unique technical microfibers that successfully combine the benefits of natural down and synthetic properties

ESP Las cualidades de PrimaLoft®

PrimaLoft® es el líder mundial en aislamiento sintético de alto rendimiento. La microfibras sintética es cálida, suave y ligera como un plumón.

- **Repele el agua**, (a diferencia del plumón natural). Reducción de la absorción de humedad para mantener el calor corporal.
- **Mantiene el calor** en cualquier tipo de condiciones climáticas
- **Se seca rápido** (más rápido que el plumón)
- Excelente **compresibilidad**, excelente relación peso/calor
- Permeable al aire
- **Fácil de limpiar**
- Duradero
- Materiales **reciclados**

La tecnología PrimaLoft®, reconocida por las principales marcas de ski, de outdoor y motocicletas, se compone de microfibras técnicas únicas que combinan con éxito las ventajas de propiedades naturales y sintéticas.

ITA Le qualità di PrimaLoft®

PrimaLoft® è leader mondiale nel proporre soluzioni con isolamenti sintetici ad alte prestazioni. La microfibra sintetica è calda, morbida e leggera come il piumino.

- Resistente
- Materiali **riciclati**
- **Idrorepellente** (a differenza del piumino naturale). Assorbimento ridotto dell'umidità per mantenere il calore del corpo.
- **Mantiene** il calore in tutte le condizioni climatiche
- **Asciugatura rapida** (superiore al piumino)
- Eccellente **compressibilità**, ottimo rapporto peso/calore
- Permeabilità all'aria
- **Facilità di manutenzione**

Riconosciuta dai principali brand mondiali di prodotti per la neve, l'outdoor e la moto, la tecnologia PrimaLoft® è costituita da microfibre tecniche uniche, che abbinano felicemente i vantaggi del piumino naturale alle proprietà sintetiche.

Les vêtements réalisés avec les membranes Gore® Windstopper® sont totalement coupe-vent tout en étant extrêmement respirants.

**Conservation de la chaleur corporelle contre le refroidissement lié au vent, grâce à la membrane totalement coupe-vent.
Evacuation facilitée de la transpiration à travers la membrane hautement respirante.**

Garments made with the Gore® Windstopper® membranes are totally windproof while extremely breathable.

Conserving body heat against wind-induced cooling thanks to the completely windproof membrane.
Facilitating the wicking of perspiration through the highly breathable membrane.

Las prendas fabricadas con las membranas Gore® Windstopper® son totalmente cortaviento y extremadamente transpirables.

Conservación del calor del cuerpo a pesar del viento frío gracias a la membrana totalmente cortavientos.
Facilita la evacuación de la transpiración a través de la membrana altamente transpirable.

Gli indumenti realizzati con le membrane Gore® Windstopper® sono completamente antivento ed estremamente traspiranti.

Conserva il calore corporeo contro il raffreddamento causato dal vento, con la membrana completamente antivento.
Facilita l'evacuazione del sudore attraverso la membrana molto traspirante.
